

**TRANSPLANT
SPOR↑**

The British Transplant Games will take place on Thursday 27th July at Warwick University campus athletics stadium.

This inspirational event relies on sport specific volunteers to make it a memorable event for all taking part. To achieve this we need:

- 20+ coaches/instructors
- Archers to help with equipment allocation – working with Jean.
- field party, athlete support, scoring
- Assistance with medal ceremonies and results - working with Kath.
- Registration/booking in – under the experienced management of Sue.
- Judging – supporting lead judge Mario Stankovic.

We also need to source equipment for the novice archers –

- lightweight bows for beginner adults, ideally 16-20 lbs in different lengths – usually we need 50-60 of these.
- Arrows min 28” length – longer is better too.
- Bracers
- (All equipment needs to be identifiable as yours for ease of return)
- Sponsor for target faces (dealerships to be approached)

This is my 10th year of organising this and each year has been great – tiring but so worth it! It would be good to make 2023 great for the 100+ archers we will have on the day.

If you can help with any of this and want to be part of a truly great and celebratory event please contact Kath Fitzpatrick, Archery Sport Manager – my details are below. We don't have any budget – but the T shirts are very sought after!

To volunteer for the Archery event contact Sport Manager Kath Fitzpatrick at Kath.fitzpatrick@me.com 07590 466907
